

HOSE, COUPLING & SKIRTBOARD POINTS OF INTEREST

As many of you are aware, the Industrial Hose, Coupling & Skirtboard catalog is being updated. Since the current catalog is over three years old, there have been many changes, and more to be made. So, until the new catalog becomes available (likely by Fall 2011), we have put together a list of changes incorporated thus far.

As an example, Series 4425 Hot Air Blower Hose has just come into the Carol Stream Distribution Center with a brown cover. Pictures of that hose accompany this blog in the "Coming Changes" section on Page 2.

The following list is an early preview of coming HC-9 changes, deletions and additions.

Products That Will Be Added

- **4807** Hi-Temp Air Hose - Wire Reinforced (3/4", 1", 2" and 3" IDs). Same as 4805, with a higher temperature (+275°F)
- **4106** TPR Air Hose - Red (replaces Series 4105)
- **4175** Reinforced Polyurethane Air Hose Assemblies (1/4" and 3/8" IDs)
- **4328** Fuel Discharge Hose - 300 PSI (2", 2-1/2", 3", 4" and 5" IDs)
- **4414** Petroleum Suction Hose - 300 PSI (2", 2-1/2", 3", 4" and 5" IDs)
