

# NEW JASON CANADA PRODUCT SPECIALIST

**Jason Canada introduces Martin Chamberland of our Montreal office as the new Power Transmission Belt Product Specialist for Jason Industrial Canada Ltd.**

Currently an Inside Sales Representative, Martin's new role as Product Specialist will focus on urethane belting. He will become the liaison between Jeff Pence's OEM Team and the Jason Canada Sales Organization.

Martin has been working closely with Umberto Silvagno from Megadyne America and has been responsible for establishing a urethane splicing and belt modification shop with the Montreal facility. This now serves customers primarily in Quebec and the Maritime Provinces.

Martin will be working with our Canadian Sales force to promote and develop new OEM and Industry applications for all Jason and Megadyne products.

He can be reached in the Montreal office at 514-631-6781.
