

# JASON WELCOMES NEW DISTRICT SALES MANAGER FOR MIDWEST WESTERN TERRITORY

**Effective June 9, 2014, Linda Clark has joined Jason Industrial as District Sales Manager for the Midwest Western Territory.**

Coming to us with fifteen years of strong Industrial Sales experience working for Goodall, Kuriyama of America, JGB Enterprises and, most recently, Superior Industrial in St. Louis, Linda has a solid background in Industrial Hose & Couplings.

Spending her first week with us learning product and procedures at the Carol Stream Distribution Center, she will serve Jason Megadyne customers in Missouri, Kansas, Nebraska and Western Iowa.

Having studied Business at the University of Mississippi, Linda resides in Lake St. Louis, Missouri where she enjoys spending time with her three children camping, fishing, boating, swimming, hiking and enjoying the great outdoors. She is strongly involved with her youngest daughter Hannah's competitive cheerleading team and, with a love of American history, also enjoys exploring historic places and landmarks.

With her knowledge and background, Linda is a fine addition to our sales team. Please join me in welcoming her to the Jason Industrial family!
